Forest Lighting Announces New Line of LED Filament Bulbs

Multiple styles replicate classic incandescent lighting

San Diego, CA. April 26, 2016. Lightfair. Forest Lighting, a global leader in LED lighting products, has introduced a new line of 3W and 4.5W LED filament light bulbs. Several styles are available including candleabra flame-tip, candleabra blunt-tip, globe, A15, and the classic A19 bulb.

“LED filament bulbs are rapidly growing in popularity in the retail, hospitality, commercial and residential markets,” said Jian Ni, Forest Lighting’s Chief Operating Officer. “They save energy and look great. And because our bulbs are affordable, customers can switch to LED lighting and stay within their budget.”

Forest Lighting LED Filament Bulbs are available in standard E12 and E26 bases. Color temperatures include 2700K and 3000K. They are dimmable, last over 25,000 hours, and the warranty is 3 years. UL and Energy Star.
