Forest Lighting Announces Affordable LED Troffers

Atlanta, Georgia. May 1, 2015. Forest Lighting has announced production of a new line of LED Troffers which are ideal for a wide range of recessed lighting applications including offices, health-care facilities, education institutions, and retail. Stylish in design, the troffers deliver direct/indirect light for attractive coverage in any space.

Available in 2'x2' and 2'x4' models, customers have options including 24W and 40W, 2400 and 4000 Lumens, and color temperatures ranging from 3000K to 5000K. The rated life is 50,000 Hours. Forest Lighting troffers are dimmable. Easy to install, there are no sharp edges or corners.

“Our troffers are highly affordable, but operating performance is not sacrificed,” said Jian Ni, chief operating officer of Forest Lighting. “Customers looking for superior lighting as well as value will be able to order from stock at our Houston and Atlanta warehouses.” A new website is available with selection and specification information, as well as a company profile.
