Forest Lighting Announces New T8 LED Lamp That Works With or Without a Ballast

Highly Affordable UniV8™ T8 LED Lamp is ideal for lighting retrofit projects

Atlanta, Georgia. February 11, 2016. Forest Lighting has announced the availability of new T8 LED Linear Lamps, named **UniV8™**, designed to operate with or without a ballast. **UniV8** LED Lamps are competitively priced, and offer customers a simplified choice when selecting T8 LED Lamps. It is UL Listed, NSF Certified, and DLC Certified- a requirement for obtaining rebates from utilities and municipalities.

The Forest Lighting **UniV8** T8 LED Lamp is four feet long, and available in 15W and 19W models. Four color temperatures are available: 3500K, 4100K, 5000K, and 6000K. CRI is >80 RA, and the efficacy is up to 115 lumens per watt. It will last 50,000 hours.

“Forest Lighting is among a small number of T8 LED manufacturers offering a universal retrofit solution that saves energy, labor and maintenance costs,” said Jian Ni, Chief Operating Officer of Forest Lighting. “Customers should carefully compare certifications, operating parameters, quality history, warranty and price for this type of product. We believe the Forest Lighting **UniV8** T8 LED Lamp, which is in stock at our US warehouses, will outperform all other products in the marketplace.”
