

Children and dogs. We love them and light them.

Forsyth County Schools in Georgia benefit from Forest LED lighting. The chief electrician at the school said, "This project is a success. Forest T8 LEDs provide great light, with great color. We now have consistent light coverage in all classrooms, offices, work areas, and hallways."

"We are very pleased with Forest Lighting and their products. Forest Lighting T8 LEDs created better lighting at our animal shelter and benefited Clermont County Ohio taxpayers at the same time."

Affordable Performance. LED T8 Tubes from Forest Lighting.

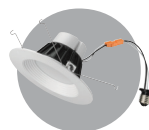

Forest Lighting LED Lighting products are UL Listed, DLC Qualified, and cost a fraction of what our competitors cost. Our LED lamps offer 3000K to 6000K, 80+ CRI, 100 LPW, and 50,000 hours of life. Call us before your next retrofit or new project, and we'll perform for you because our affordable LED products are in stock now.
